

BUYING GUIDE • Keyboard Platforms

If you spend several hours a day at the keyboard, it's important to pay attention to proper ergonomics. For the most comfortable body positioning follow these suggestions:

Head, neck and shoulders are positioned forward and upright

Shoulders and arms are roughly perpendicular to the floor; elbows are held close to the sides

Adjustable keyboard tray and chair allow ample clearance between thighs and keyboard tray

Keep hands and wrists in a straight line with forearms

HOW TO SELECT THE RIGHT KEYBOARD TRAY

1 ASSESS YOUR WORKSTATION

Determine the type and size of your workstation for the best fit.

21" or more
Curved Corner
Workstations

21" or more
Corner
Workstations

17" – 23" Standard-Depth
Workstations

21" or more
90 degree angle
Workstations

2 CONSIDER THE LEVEL OF ADJUSTABILITY NEEDED

Identify the type of adjustability you need for maximum comfort.

Height Adjustment
Platform adjusts below or above your workstation.

Tilt Adjustment
Adjust the angle of your keyboard platform.

Swivel Adjustment
Allows platform to rotate for user comfort.

3 CHOOSE THE RIGHT SURFACE

Determine your keyboard and mousing surface needs.

Standard Platform
Platform without mousing surface.

Platform with Mousing Surface
All-in-one platform. Mousing surface can be placed left or right.

Adjustable Platform with Adjustable Mousing Surface
Platform with patented left/right lateral adjustment for exact positioning of the keyboard. Highly adjustable mousing platform.
